Dear The Federal Communications Commission,

The flat-fee Universal Service Fund proposal is unfair. I urge you to oppose this plan. I am one of the millions of consumers that will be unfairly taxed at a higher rate under the flat fee plan. The flat-fee would mean a tax hike for people like me -- consumers that use prepaid cellular phones or make few long distance calls.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as high-volume residential or business customers. I urge you to reject this flat-fee proposal.

Thank you.
